- Multiple sessions for the same user on the same device

## Financial Sanctions Checking

To comply with HMT Financial Sanctions Checking requirements you must enter the full First Name and Surname for your client. It is also important that we have their full address for the same reason.

Our IT systems have integrated Sanctions Checking so you do not need to take any specific action other than ensuring that you enter the necessary information on the client into the Portal.

If you do not enter the necessary information it will prevent a sanctions check from being done and may prevent you from being able to proceed with the policy.

For more information on Sanctions Checking please refer to the Appendices of this document.

## Appendix 1 – Financial Sanctions Checking

### Introduction

In 1993 the Bank of England set up the Financial Sanctions Unit to administer financial sanctions against Libya. Since then the unit has continued to exist in a number of guises and under different governance regimes and since 2016 has been **Office of Financial Sanctions Implementation** within HMT

As part of our binders with insurers we are required to complete Sanctions Checks on all of the individuals and businesses we insure. This has been commonplace in the insurance industry for a number of years now.

It is a criminal offence to provide a financial service or product to an individual and not complete a financial sanctions check

Financial Sanctions are put in place by Her Majesty's Treasury (HMT), the UN or the EU to limit the provision of financial services or to restrict access to financial markets, funds or economic markets to certain individuals or businesses. This is typically to limit the opportunity for money laundering.

Sanctions checks need to be performed on

- Businesses (entities) we insure
- Individuals we insure
- Individuals who have a financial interest in businesses (entities) we insure i.e directors

Sanctions lists are constantly changing and as a result a business or individual that was not the subject of sanctions at new business still needs to be checked at renewal

### Who is on the Sanctions List?

If a person or organisation is on the consolidated list it means they have had their assets frozen

Even if they're not on the consolidated list themselves, organisations are subject to financial sanctions if they're

- more than 50% owned by a person or organisation that's on the consolidated list
- controlled by a person or organisation that's on the consolidated list

If a person or organisation is on the consolidated list it means they have had their assets frozen. This means you must not

- make funds or resources available to them directly (for example by buying something from them, employing them, giving them a gift or loan or repaying a loan to them)
- make funds or resources available to them indirectly (for example by paying off a loan on their behalf)
- give them access to assets you're holding on their behalf (for example letting them withdraw money from a bank account)

- buy, sell or deal with assets that belong to them, or are held or controlled by them

We must not do anything to get around financial sanctions, or help anyone else to get around financial sanctions - directly or indirectly

### **When a check is required**

We are required to perform a Sanctions Check

- Prior to offering terms to bind cover
- Prior to binding cover
- Prior to any return of monies to the client i.e cancellation mid term
- Prior to any claim payment
